## The Rosco Glass Desk Pad

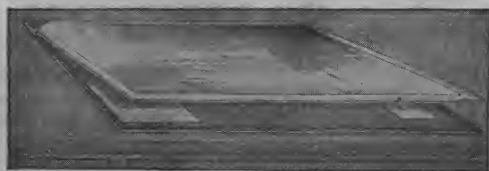

The base of the Rosco Glass Desk Pad is made of a high grade of seasoned binders board. The edges are built-up and are covered with heavy cloth-lined leatherette—more durable than leather, and in beautiful designs to match light oak, golden oak, weathered oak and mahogany. The glass surrounded by the richly trimmed frame is further enhanced by the interior of the pad being covered with a rich, green paper, thus completing in harmonious arrangement an accessory that is necessary to every one with a desk.

A black leather book cover with a rectangular blind-tooled border and a central panel. The cover is shown from a slightly elevated angle, revealing the thickness of the book. The leather has a fine, pebbled texture. The central panel is slightly recessed, and the border is defined by two parallel lines of tooling. The spine of the book is visible on the left side, showing the binding structure.

## MULTIPLE RING PRICE BOOKS

Bound Full Flexible Seal Grain  
Black Cow Hide,  
Black Leather Lined;  
Pocket in Covers  
Except in Numbers 115 and 116.  
Side Opening.

Seven rings, scientifically constructed, practically prevent tearing of sheets, which is the objectionable feature to ordinary round-ring books. The metal part consists of only three parts, two bars of which the rings form a part and one back. All books are equipped with automatic openers. The seven-ring book is the greatest advance since ring-books were invented.

## AMBERG'S TRIAL BALANCE BOOKS

Arrangement of alternate wide and narrow leaves.

The peculiarity of Amberg's Trial Balance Book is that it gives 13 successive balances with one writing of names, while the book is as ample in spacing—but no larger—than the 6-column balance book.

### THE ADVANTAGES ARE:

**First**—One writing of names for 13 balances.  
**Second**—It enables you to "keep the run" of customers' accounts for a year easily.  
**Third**—There is no danger of getting on the wrong line, as in books of twice the size having 12 columns.

**Fourth**—There is no danger of skipping an account which has appeared in a former balance.

**Fifth**—Their general utility and convenience, both for bookkeeper and employer, is so manifest that where once used no other will be substituted.

**Sixth**—The months are not printed in the headings, so that they can be begun in any month. The object of 13 columns is to take the regular twelve monthly balances and another after the closing entries have been made at the end of a business year.

The rule in starting is to allot a line for every account space in the ledger which is liable to have a different account. Names are written in from month to month as accounts are opened.

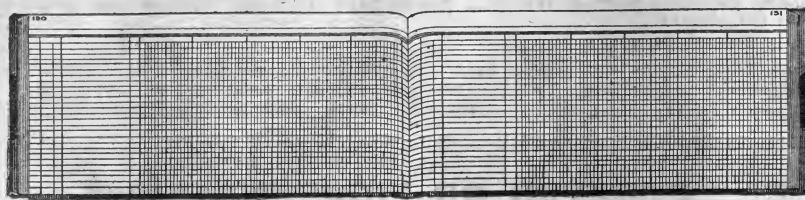

These books have ruled footing lines, and every alternate fifth faint or horizontal line in red and blue.

Russia leather back and corners, cloth sides. "Noremac" linen ledger paper.

No.	Size.	For	Each.	No.	Size.	For	Each.

## INDEXES AMBERG-SAYER

**ADVANTAGES**—Opened instantly at any combination with one hand; it is a great time-saver—impossible to enter a name wrong; will hold fifty per cent. more names, owing to perfect classification; combines an Index and Address Book in one volume; it condenses the greatest number of names into the smallest space. In all other indexes you refer to a tedious index column to find a name. In the Amberg-Sayer Index you never refer to the main or index column to find any name, but to the one that is the least filled.

The ruling is so arranged that it does away with the necessity of glancing up and down long columns; it simplifies the entering of names to such an extent that it is impossible to enter them in any but the correct way; the names always appear in their natural form and are never transposed. Its simplicity and practicability are apparent at a glance. Every part of a name, whether of an individual, firm or corporation, has a column allotted to it.

The law contained in the Vest Pocket Lawyer is the same as that which is taught in the University. Contains a three year course in a nut shell form.

The law contained in the Vest Pocket Lawyer has been upheld by the Supreme Court of United States for over one hundred years.

A few subjects treated in this book are: Contracts, Agencies, Torts, Domestic Relations, Criminal Laws, Personal Property, Landlord and Tenant, Wills, Real Estate, Real Estate Mortgages, Chattel Mortgages, Evidence Negotiable Instruments, Confession, Pleading Common Law, Equity Pleading, Code Pleading, Practice Constitutional Law, Partnership, Corporation Judgments, Attachment Garnishment, Executions and Bankruptcy.

One hundred twelve legal forms for drawing up papers of all kinds, will also be found in the Vest Pocket Lawyer. You know what a lawyer would charge for any of these—from \$5.00 apiece up to \$20.00.

\$1.00 each

For smooth writing there is nothing quite so good as the Noremac Pencils.

## DRY SHEET MUCILAGE

Dry Sheet Mucilage is always ready for use, and will keep indefinitely. For scrap books it has no equal.

DIRECTIONS: Moisten evenly on both sides and place between photo or card and leaf of album, or between any two pieces of paper you wish to fasten together. Some prefer to attach the squares to the photo or card first, moistening one side only; then moisten the other side and place in desired position in album.

Strips are preferable in many cases as there is always a dry end for the fingers.

Jar of 500 pieces 1/2 x2 inches, 25 cents jar.

## DE LUXE DUPLEX COLUMNAR FORMS

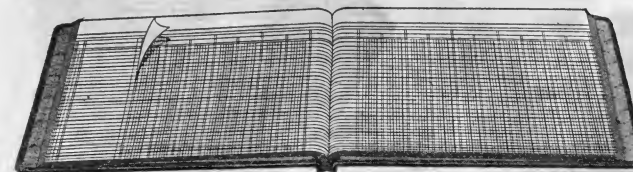

The flexibility of these forms admits of any combination of columnar rulings that may be required. They provide a decided advantage over the ordinary bound columnar book, in that they do away with the necessity for working across a wide page where a multiplicity of columns are needed. See description of possible combinations below.

Forms MR 812, MR 9102, MR 1420, MR 1724 and MRS 1 can be cut off on the first down line following the description columns, thus providing long and short leaf forms giving any number of columns, as one or more of the short leaves can be inserted behind the long leaves carrying the description column. Thus Form MR 812 with one short leaf provides a 20-column form, and with two short leaves a 28-column form, etc.

## De Luxe Duplex Columnar Forms are Flat Opening

De Luxe Duplex Columnar Forms are ruled on white De Luxe ledger paper, Grade B, and are made up in packages of 100 leaves. The forms have the Jones Eureka Treated Hinge, making them flat opening. Carried in stock unpunched and can be punched for any binder. We recommend for use with Forms MR 84, MR 88 and MR 812, on account of their narrow binding margin. De Luxe Price Books, Memo Books, Ring Binders or Style PC and PCC Price Book Covers. For the other forms, which have the 3/4-inch binding margin, sectional post binders and Style PC covers are recommended.

## How Many Minutes Do You Waste Each Day Trying to Remember Things?

\$1.00  
Postpaid

## The Robinson Reminder Will Tell You Instantly

As you walked from your house in the morning you had an idea that would have proved of value in your business. At the office you could not remember what it was. You failed to make note of it—trusting to your memory and then spent fifteen minutes vainly, trying to recall it—because it was valuable.

How many times have you had an idea that you wished to hold only to lose it because you jotted it down on a piece of paper or wrote it on the back of an envelope and then lost the envelope?

The Robinson Reminder keeps it always before you until it ceases to be of value. Then it can be torn out and thrown away without interfering with your other notes.

In this way only five notes are kept. You do not have to thumb over many pages to find the thing you want.

The Robinson Reminder consists of a perforated pad of coupon sheets made of bond paper enclosed in a handsome leather case, with a pocket for holding special papers.

When the coupons have all been used you can insert a new pad in the cover in an instant's time.

### MAXIM MOUTHPIECE ANTISEPTIC TELEPHONE

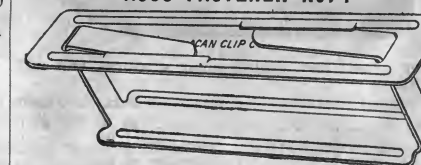

Is made of clear, transparent glass of the same shape and size as the ordinary telephone mouthpiece, and is "snapped" into a metal socket which fits perfectly and screws into the transmitter.

Covering the circular opening at the base of the glass mouthpiece is a single thickness of medicated, antiseptic gauze through which the speaking is done. The gauze acts as a filter and prevents the accumulation of dust in the transmitter. Its antiseptic properties prove thoroughly efficient.

Price, 50c. each.

### ACCO FASTENER No. 1

Distance between the prongs, 2 1/4 inches; fits regular Shannon punching. Length of prongs, 1 1/2 inches.

It is a perfect filing device; being absolutely flat it takes up less room than any other fastener on the market.

It is a binder and does not depend upon the strength of the papers to hold.

It is a permanent binder with every advantage of the temporary fastener.

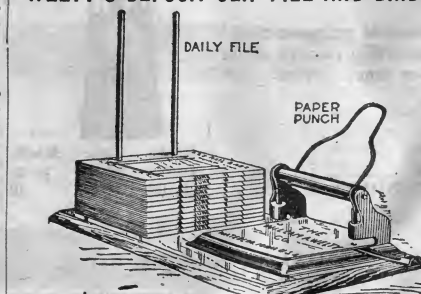

It is easy to add or remove papers from any part of the file.

The Prong Shield Washer allows the prongs to be bent inwardly over the washer and to be fastened.

The Prong Shield Washer holds the prongs perfectly flat and adds to the neatness of the fastener.

Packed 50 in box..... \$5c box

### WELTY'S DEPOSIT SLIP FILE AND BINDER

The perforator is made of steel throughout, with adjustable gauge. The perforator and spindle are fitted to a solid oak base. With each device is furnished dated guide cards and wires for indexing and binding one year's business.

**HOW TO USE.** At the close of the day perforate the slips for the day and place them on the spindle with a date card on top. At the end of the month thread the wire through the eyes provided in the top of the posts, then pull the slips and guides off into the wire and bind.

**COMPLETE, WITH ONE YEAR'S SUPPLIES, \$5.00.** We also furnish the yearly supplies, for any system, separately, at \$1.80 per set.

If we serve you satisfactorily with office supplies, try us on your next order for printing.

When interested in loose leaf ledgers, send for a Noremac on approval, charges paid.

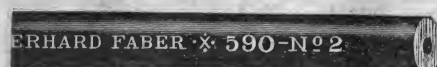

**A copy of our complete Loose Leaf Catalogue sent upon request.**

VUL-COT WASTE BASKET

ADVANTAGES

Efficient

The solid sides and bottoms of Vul-Cots prevent small scraps of paper, pencil shavings, etc., to fall through to the floor. They hide unsightly contents.

Fine in Appearance

Vul-Cots are ornamental as well as useful. The standard color, maroon brown, harmonizes perfectly with office furnishings. (Special colors can be obtained if desired.)

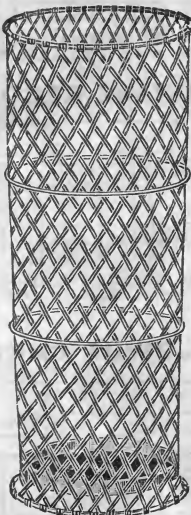

Non-Inflammable

Vul-Cots are not absolutely fireproof, but they are fire-resisting to an unusual degree. Fire started in the contents of a Vul-Cot basket would be confined to the basket itself until the flames could be extinguished.

## The "Capitol" Inkstand

IN designing this inkstand the purpose in view was to supply the needs of many for a stand that is sufficiently shallow to fit under pigeon holes of desks and other similar places, but because of its originality it is proving a favorite for general use.

Nos. 1 and 2

Nos. 6 and 7

Nos. 9 and 10

There is no loss by evaporation, as the body of ink is kept from air and dust, and so rendered clear and fluid until the last drop is used.

Depressing of funnel is avoided. No time lost. No injury to pens. Just the right amount of ink is fed. It is impossible to get ink on holder.

There are but two parts. By removing the funnel the glass well can be filled or cleaned instantly.

Weight is nearly a pound, size is 3½ inches square and height 1½ inches.

## JELLITAC

### The Photographer's Powder Paste

Sprinkle into cold water and it instantly turns into a beautiful snow-white paste. Mix it as you need it.

Photographers now use JELLITAC for mounting photographs on cardboard, for the very simple reason that it does not stain the photographs, and should any of the paste ooze out on the cardboard mount it does not discolor the cardboard, no matter how delicate its tint and texture.

## THE GARDNER

Nos 7, 8 and 11.

Nos. 9 and 6.

Everyone who writes will appreciate an inkstand that prevents evaporation of ink, keeps dust from settling in it, always supplies the pen with fresh ink and can be used a long time without refilling; the "Gardner" has all these features. Besides these, being open at the side, it is the only inkstand made that can be used in the pigeon-hole of a desk, and permits the pen to be dipped while held in the natural position for writing. Its simplicity is one of its very strongest features. This inkstand is entirely free from floats, weights, valves, springs and rubber diaphragms. Its automatic action is therefore permanent.

## DRAWING PAPER

## WHATMAN'S IN SHEETS

The Whatman's papers are hand-made, and they differ in surface as follows, viz:  
H. P. signifies "hot pressed," a smooth surface, mostly used for very fine drawing.  
C. P. signifies "cold pressed," a finely grained surface, used for general drawing and water-color drawing.  
R. signifies "rough," a coarsely grained surface, used for very bold drawing and sketching (Torchon Paper).

In ordering please specify which surface is wanted, H. P., C. P. or R.

### "SPECIAL" BLOTTING

A good absorbent at a moderate price. Especially desirable for desk pads and to cover writing boards of desks. In white and blue.

Price per pound, in 1/4 and 1/2 ream lots, 12 cents.

No.	Weight to Ream.	Size.	Doz.
30	120 lbs.	19x24	\$0.50

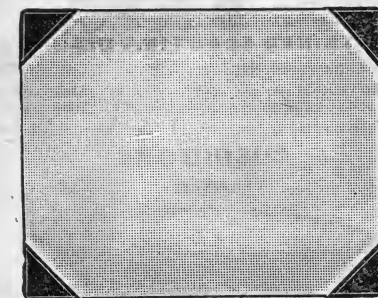

## SHAMROCK

THE SHAMROCK Blotting Paper has a very smooth, velvety surface that absorbs ink instantaneously. The lint will not rub off its surface from friction and leave the desk covered with a white dust. It is, without question, superior to any domestic or foreign product on the market. We control the output from the mill, and solicit a trial order.

## WOVEN DOWN

This duster is made entirely by hand, from fine Down, carefully selected and woven into a strong warp, doubled over and firmly fastened upon a steel wire frame attached to a highly-polished enameled maple handle. It does not scratch or mar pianos, fine furniture, carriages, desks, etc. When completely filled with dust it is either taken from the room or held near the floor, and beaten out in a moment, leaving the duster clean and fresh for continued use.

## DUST CLOTH

## Absorbent

Dust Cloths prevent the dust from rising and scattering and settling in other places as do the ordinary dusters, but they hold the dust and actually absorb it. They also polish Furniture, Pianos, Woodwork or any other varnished surface, and they leave it bright and glossy as when new and do not leave lint after using, as does the ordinary cloth.

When the Dust Cloth becomes dirty and filled with dust, it is simply washed with warm water and soap, rinsed thoroughly, and when dry it is again ready for use. This process is repeated until the cloth itself is worn out. Washing does not affect the chemical properties of the Dust Cloth in the least. It is antiseptic and contains no ingredients injurious to the finest surfaces.

Price, 25c. each.

Toughness combined with smoothness are the characteristics of the Noremac Pencils.

For Grooves, for changeable dates, figures, etc.....each, .25

Curved Lines count as two lines, except where they occur inside a round or oval border. **Lines over  $\frac{1}{4}$  inch high double price.**

Special Sizes and Designs, stamps larger than those for which prices are given, and stamps containing special or peculiar designs, made at reasonable prices.

When ordering hand stamps state the length or the purpose for which they are intended; or send a blank that it is to be used upon and the number of lines it is to be, and we will select and arrange the size and style of type which is most suitable. Care should be taken that the copy is distinctly written, especially with regard to initials and names. If there is any doubt, it is necessary to write or submit a proof, which necessitates several days delay in filling order.

Special prices in quantities all one kind.

**ACCURATE AUTOMATIC NUMBERING MACHINE**

To meet the demand for a low-priced automatic numbering machine, the "Accurate" has been manufactured.

The frame is made of steel and the numeral wheels of cold rolled brass, making it practically indestructible.

It will repeat any desired number as many times as required, or it will change the numbers consecutively automatically or number in duplicate automatically by the action of the machine. The device for setting the machine—to print in the three ways—is so simple that a child can work it.

When through using it, it can be locked, with the figures up or down so that they cannot be interfered with.

# SIMPLEX INCOME SYSTEM

For the Merchant, Professional Man or Farmer

The New Income Laws require every individual who has an income over a specified amount to make a report, covering the details of said income.

**Eliminate Trouble  
and Worry by  
Using This System**

No. 2. Simplex System for the Farmer. .... **\$5<sup>00</sup> each**

No. 1. For Merchants and Professional Men..... **\$5<sup>00</sup> each**

## The Simplex Income Systems Solve This Problem

Realizing the extra work that is going to be shouldered upon those making reports, the Simplex Income System has been devised to eliminate all these troubles. It is a small compact form which gives you every detail of your business at your finger's tip at the end of any hour, day, week or month. It requires no technical knowledge of bookkeeping to keep this system—it requires very little time, and regardless of the Government's demands the information contained therein is valuable to any business man or farmer.

## The Rosco Glass Desk Pad

The base of the Rosco Glass Desk Pad is made of a high grade of seasoned binders board. The edges are built-up and are covered with heavy cloth-lined leatherette—more durable than leather, and in beautiful designs to match light oak, golden oak, weathered oak and mahogany. The glass surrounded by the richly trimmed frame is further enhanced by the interior of the pad being covered with a rich, green paper, thus completing in harmonious arrangement an accessory that is necessary to every one with a desk.
